WELCOME TO LABADEESM

Although originally said to have been discovered by Christopher

Columbus in 1492, it wasn't until Royal Caribbean discovered it five centuries later that it became the secluded tropical paradise that it is today. The two main historical monuments on LabadeeSM are Nellie's Place and the Old Bell Tower. Legend has it that Nellie was an Englishwoman who arrived at the time of the buccaneers and set up a trading post and tavern for visiting ships and their crews. The Old Bell Tower was erected to announce their arrival. The actual bell in the tower was plundered long before the arrival of Royal Caribbean, but was previously used to ring out across the hillsides and let local farmers know when to bring their produce down to the quay.
